CV

Sofia Andguladze

UX/UI & Product Designer

UX/UI & Product Designer with experience in AI product deployment, partner enablement, educational initiatives, and conversion-focused digital design. I work across product interfaces, AI implementation, workshops, partner communication, and real-world rollout of digital solutions, combining strong visual thinking with practical product logic.

EXPERIENCE

AI Product & Activation Specialist

2025 — PRESENT

Newo.ai / TwinMind

Working with AI products, activation flows, partner support, and deployment processes for voice agents and AI-powered communication
systems.

- Configured and launched AI voice receptionists and communication flows for SMB clients
- Structured conversation logic, FAQ systems, and practical agent behavior
- Managed activation lifecycle including widgets, call forwarding, integrations, and deployment setup
- Worked with CRM systems including GHL and Odoo
- Supported partner onboarding and ongoing partner communication around AI product implementation
- Organized and led TwinMind Academy workshops and educational sessions for partners
- Spoke at workshops, partner sessions, and conference-style presentations focused on AI solutions and real use cases
- Created partner-facing materials and supported educational and product communication initiatives

Content & Platform Operations Specialist

2024 — 2026

Company under NDA

- Worked with large-scale social media platforms handling content moderation and digital policy compliance
- Analyzed high volumes of user-generated content and behavioral patterns
- Applied platform policies and safety frameworks while maintaining decision accuracy under KPIs
- Developed a strong understanding of risk signals, user behavior, and trust & safety processes at scale

Web Experience & Creative Digital Lead

2025 — PRESENT

Art Boom Creative Studio, Tbilisi

- Contributed to website structure planning and content organization
- Designed clearer information flow for parents and students
- Improved service presentation, enrollment logic, and digital communication clarity
